Van Gent Nest

Simplicity and high quality

The Van Gent Nest is made of wood and encourages the natural behaviour of the birds. The construction is solid and simple, which makes the nest easy to assemble and clean. The nest is provided with an automated expulsion system. It expels birds from the nest after laying the egg, preventing broodiness and soiling the nest. The Van Gent Nest is available as 1 or 2 tier, single (wall-formation) or double, standard of XL.

- Suitable for layers and breeders
- Automatic expulsion system
- Easy nest inspection
- Durable materials
- The best results

Specifications

Specifications		
Materials		
Laying nest	Film faced plywood 9 en 15 mm	
Egg belt	2 x 250 mm, Polypropylene (PP), woven or perforated	
Dimensions		
	40 cm (standard)	45 cm (XL)
Length	2,400 mm	2,400 mm
Width	1,430 mm	1,530 mm
Depth	415 mm	465 mm
Astro-Turf mat (4x)	445 x 1,165 mm	490 x 1,165 mm

Van Gent slats

Robust, comfortable and animal friendly

Van Gent's hardwood and plastic slats are durable, provide a good grip for the birds and ensure a clean living environment.

Hardwood slat

The solid hardwood slats have a very long lifespan and are easy to install. The wood is planed on four sides, has rounded corners and the slats are constructed with stainless steel staples. This guarantees a safe place for the birds. The base of the hardwood slats is available in galvanized steel.

- Suitable for layers and breeders
- Very long lifespan
- Comfortable and animal friendly
- Free span
- Easy to clean
- Fast assembly and set-up

Specifications

Size	1,200 x 1,000 mm
Weight	14 kg / slat
Slat distance	25 or 20 mm
Material	Hardwood
Durability	Class 1
Mounting	Stainless steel staples

Plastic slat

The plastic slats are characterized by the strong and open construction. The birds have a good grip and the slat has a good manure passage because of the lattice structure. This promotes the welfare of the birds and that is reflected in good production results. The plastic slats are durable and easy to clean due to good choice of materials.

- Suitable for layers, breeders and ducks
- Open structure
- Good manure passage
- Strong construction
- Easy to clean

Specifications

Size	980 x 625 / 1,170 x 625 mm
Mesh	40 x 22 mm
Material	Polypropylene
Durability	UV stabilised
